- 10:05 am - 11:05 pm** **Concurrent Breakout Sessions**

Drugged Driving: Physical, Visual and Verbal Identifiers for the Possible Drugged Driver - Atrium

Logos, stickers, physical identifiers, and clothing may be utilized by the drugged driver. Do you know what that sticker on the car really means? What is that logo on that hat really telling you? Where did they get it? How is it possibly drug-related? Certain everyday items have gained popularity in the drug world and that list is frequently changing. Certain “containers” in the console, doors or compartments of the vehicle may be holding drugs or paraphernalia.

◆ *Jermaine Galloway*, Owner, J. Chad Professional Training

The Uniquely American Three Tier System of Alcohol Distribution - Hyalite

The three-tier state based market structure of alcohol regulation is purposely designed for checks and balances. The role and purpose of an independent middle tier is to avoid the overly aggressive marketing and sales practices of the pre-Prohibition era, provide orderly transparent markets, efficient tax collection, encourage moderation and facilitate state and local control of an intoxicating product.

◆ *Brian Clark*, President and COO, Fun Beverage, Inc.

Drivers, DUI and Driver Control Action - Tamarack/Aspen
 This session will cover the difference between probationary, essential only, and temporary licenses; suspensions, revocations and reinstatements for driving under the influence offenses. It will also address the new DUI laws and the effect on driver licensing and administrative action. Additionally the top five items to remember for law enforcement, prosecutors, and the courts will be reviewed.

◆ **Michelle Snowberger** Bureau Chief, Record and Driver Control
 Department of Justice, Motor Vehicle Division

11:05 am - 11:20 am **Break**

11:20 am - 12:20 pm **Concurrent Breakout Sessions**

Alcohol and Drugs in Rural Communities - Atrium
 This session will focus on programs to reduce underage drinking, retail sales to underage, and impaired driving in rural communities where underage drinking, drug usage and large parties are prevalent. Current alcohol and drug trends in the schools, along with joint prevention programs between educators, sports teams, coalitions and law enforcement will be discussed. Rural party patrols and how to “have a high impact with low numbers” of law enforcement and prevention personnel will be taught to attendees.

◆ **Jermaine Galloway**, Owner, J. Chad Professional Training

LINDA BECKER, PhD is the Senior Prevention Research Manager for the Division of Behavioral Health and Recovery (DBHR), the part of Washington State's social and health services agency that supports substance abuse treatment and prevention. Dr. Becker manages evaluation and research associated with the Division's prevention work and has the lead for many of the data collection efforts that support planning and research. During the last two years a major focus of that work has been the surveillance of the public health impact of the State's changed alcohol and marijuana regulatory systems. Her PhD from the University of Washington is in social geography, which leads her to draw attention to the uneven nature of the social world. To provide data for measuring that unevenness, she has worked with several of the state's data systems to secure data at the community level, from small rural towns to large urban centers. As an Air Force "brat", Peace Corps volunteer, and geographer, she has lived and travelled the world. Seattle is home where she gardens, rows, and recently started a neighborhood chicken project.

Compliance Monitoring Systems

Compliance Monitoring Systems, LLC. is the premier state-wide service provider in Montana for cost effective electronic monitoring, alcohol monitoring, home detention, drug testing and pre-trial services. CMS is the leader in the most accurate and innovative technology operable in Montana. CMS is the largest SCRAM service provider in Montana, providing 75% of SCRAM services throughout the state. We offer alcohol monitoring (SCRAM) for high risk offenders that is both evidence based and court accepted as well as alcohol monitoring for low risk individuals through Remote Breath testing, twice daily PBT's, and semi-quantitative in-house EtG's. CMS utilizes more than one manufacturer of electronic monitoring equipment so that we may provide the best solution for each agency's unique demographics based on location, cell service, GPS signal and specific court/agency needs (GPS tracking and Home Detention). CMS has an in-house drug testing lab utilizing Siemens Viva E EMIT drug testing methodology (urinalysis lab) that allows us to process our own urine samples within minutes of the sample entering our lab. CMS is a local distributor for the PharmChem Drugs of Abuse Sweat Patch for individuals who are unable to travel for urinalysis or are in need of 24/7 drug testing.
